

May 21, 2012

Dr. Tina Thomas was a hit with everyone who attended her session at the 2012 ARSHRM conference. We have only received preliminary evaluations but so far she was by far one of the most liked speakers of all the concurrent sessions. The attendees as a whole felt the presentation was not only worthwhile and informative, but also that she was a wonderfully engaging speaker.

Some comments on the evaluations included; "Absolutely the BEST concurrent session of all", "Probably the most engaging concurrent session speaker I've ever heard at a state conference", and finally "Fantastic perspective on human nature. Would like her to talk with my work group of 200+".

I would highly recommend Dr. Thomas for any organization!
